Objective:

Motivated and skilled professional with a diverse range of experience in quality assurance, system engineering, and Linux migration. Seeking a challenging position where I can utilize my expertise to contribute to the success of an organization.

Education:

Mechanical Engineer, [B.E.]

Savitribai Phule Pune University

Pune Maharashtra

[2016-2020]

Languages :

- Python
- SQL

Experience:

Quality Associate for Data Labelling

NVIDIA Corporation

April 2021- January 2022

- Collaborated with a team in the field of Autonomous Vehicles to annotate and label collected data using AI tools, ensuring high-quality and accurate annotations.
- Worked closely with project managers and data scientists to understand project requirements and deliver on client expectations within tight deadlines.
- Developed and maintained documentation and standard operating procedures to ensure consistency and improve efficiency in the data labeling process.

System Engineer:

Tata Consultancy Services

(February 2022-Currently Working)

- Successfully contributed to the migration of applications for a banking client from RHEL6 and RHEL7 servers to the latest RHEL8 servers.
- Managed multiple servers hosting various applications, including autosys and chef roles, ensuring smooth operation and minimal downtime.
- Collaborated with cross-functional teams to assess system requirements, plan migration strategies, and execute migration activities in a timely and efficient manner.
- Conducted thorough testing and troubleshooting to identify and resolve any issues encountered during the migration process.
- Provided technical support and training to end-users to ensure seamless transition and adoption of the new Linux environment.

Skills:

- Proficient in python, learning various libraries.
- Proficient in Linux migration, server management, and administration
- Strong knowledge of RHEL (Red Hat Enterprise Linux) servers and associated tools
- Experience in data labeling and annotation for AI applications
- Familiarity with autosys and chef roles for job scheduling and automation
- Solid understanding of quality assurance principles and practices
- Strong analytical and problem-solving skills
- Excellent documentation and reporting abilities
- Effective communication and interpersonal skills
- Ability to work collaboratively in cross-functional teams
- Detail-oriented and highly organized

DECLARATION: All the information mentioned in the resume are correct to the best of my knowledge and believe.
